Outdoor Sheik!

SCOUT DESIGN STUDIO has redefined roughing it. (In other words, count us in!) This woven fiberglass yurt comes in industrial gray or black and is built to last. The architectural details will make you feel like you're spending a cool night in a foreign desert. "It's like a modern-day treehouse," says director of business development Christine Hayner. Though it can be used indoors or out, we recommend opting for the add-on retractable roof for optimum stargazing. Yurt with retractable roof, \$8,750. scoutdesignstudio.com

This wire and resin
piece comes from New
York-based artist
ANNABEL DAOU,
exhibiting now at Con-
duit Gallery. Inspired
by the remnants of
past generations and
cultures, the Lebanese-
born sculptor is drawn
to skeletal structures
and empty vessels.
Catch the exhibit
through May 12.
